April 19, 1939.

Dear Doc:

Just got your letter - had been writing you of my Miami experiences so will start over. Sure glad to receive that letter and I know it will serve to clear up a lot of things apparently puzzling to Mr. Rider and their group at Offord. (About my remaining here at Edison)
I appreciate your sending the letter here too as Ruth is sensitive to mention of her condition and it is upsetting.

I think they have the impression my record here is due to unusual material or some other contributing factor. Truthfully it's about the opposite for our general run of material is often inferior and certainly our only games have been against the best. We have never sought to "build up" a record - playing outside opposition when they feel "tough" enough. I really didn't realize we had such an imposing record. I do know that it's reached the stage here where a kid realizes he must be good to make the team, so they really listen and go to work to be good. I hope I didn't have an impression of being cocky
