Physical Education Department,
Lawrence, Kansas

Gentlemen:

We are just in receipt of your order No. 4370 for one #407-M, all metal straight 16' chute, for which please accept our thanks.

Owing to unusual demand and difficulties in securing galvanizing materials, we find our stock of this particular chute exhausted and we shall be unable to make shipment in less than two weeks.

However, we do happen to have a supply of the all-metal 16' chute, wave type, which can be shipped at once, at an additional cost of \$10.00.

We shall await your instruction in this matter, and are enclosing clipped sheet from our catalog giving you an idea of what we mean by wave chute.

Yours very truly,

RECREATION EQUIPMENT COMPANY
