Dear Doctor Allen

I received your letter and
though it took quite a bit of doing
I believe I got the job done

If I'm to believe, this
chap who I've thought on many
occasions was only about 9/10
there mentally, we have the fish
in a bowl - I mean the go-between locally.

I hope you believe as I do
that there is enough in what
he told me to form a basis
for anything you might care
to say -

I'll see you next Monday.
Julian
