Gentlemen:

Mr. W. H. McPhee of Spokane, Washington was transferred to Kansas City in March and will be here permanently. He is a graduate of Washington State College and was fast becoming one of their better officials in the Northern division of the Pacific Coast Conference. Coach Jack Friel of Washington State recommended him very highly. I received a letter recently from Coach Edmonson of the University of Washington voicing his high praise of Mr. McPhee as an official.

Coaches Drake, Gardner and Lewandowski met him at the N C A A finals and already have him in some of their non-conference games.

If you would care to have him work in some of your non-conference games won't you please so advise me.

Very truly yours

R. E. Peters
