

March 27, 1945.

Mr. Burt Ober,
LaJolla, California.

Dear Burt:

Thank you so much for your thoughtfulness in congratulating me on the election as Governor of District 123, R. I. It is nice of you to think of me, and it was also good to receive a clipping giving Lt. Glenn Cunningham's opinion on his doubts as to Hagg.

I notice that prices are higher than a cat's back in California. Well, a fellow who is better satisfied is the man who tries not to spend everything he has got. When it shrinks he will still have a little left.

That rocket powder is something! I would want more than 625,000 acres if they are going to shoot that stuff around me. I would be clear on the outside of all of it. It is mighty powerful because I have seen them shoot it, and it is devastating.

Anticipating your and Mrs. Ober's early return, and asking to be remembered kindly to her, I am

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
