Mr. Forrest C. Allen,  
Director of Physical Education  
Varsity Basketball Coach  
University of Kansas  
Lawrence, Kansas

Dear Mr. Allen:

Many thanks for your letter of October 29, 1942. Had I known that you were the person to whom I should have written, I would have addressed you directly instead of sending my letter to Dean Jakosky.

You can rest assured that I know you have the welfare of the boys in mind and will do everything you can for them. I wish to explain that I was not complaining about your physical education courses. On the contrary, I had learned that Robert had been excused from the courses and was, therefore, not receiving any benefit from class activities which are so well needed by boys of his age. Consequently, I wrote with the idea of being sure that he did have the opportunity of taking just as much work as the doctor would approve.

Again thanking you for your letter and expecting to have the pleasure of seeing you again in the near future, I remain

Very truly yours,

G. G. Oberfell
