

July 28, 1938.

Professor F. P. O'Brien,
School of Education.

Dear Dr. O'Brien:

I would not bother you with reading material at the very time when you are the busiest, except for the fact that I would like to have you scan some of the writings that I have done on physical education and athletics.

In 1934 I wrote "My Basketball Bible". In 1929 I contributed a chapter on Organization and Administration of Physical Education for Dean Kent in his "Higher Education in America". In 1937 I wrote "Better Basketball".

The only reason that I am sending you these volumes for your inspection is to show you that in my many years in physical education and athletics I have a grasp of the subject beyond the theoretical stage. I feel many people have thought of me as the athletic type, rather than as an administrator in physical education.

You will do me a kindness by glancing over these volumes. I would suggest that in your busy time you might scan lightly through "Better Basketball", dwelling a little on the research and The Tales of Yesteryear, but spending more of your time on the chapter in Higher Education in America. When you have finished with the books if you will call my office, K. U. 89, we will be glad to send for them.

Pardon me for encroaching upon your busy hours just prior to your leaving for vacation.

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
