

December 14, 1938.

Mr. Ralph T. O'Neil,  
315 Woodlawn,  
Topeka, Kansas.

Dear Dyke:

I wanted to give you a report on Bob. We finally got Dr. Tice to read the x-ray picture of Bob's foot. We had it taken Wednesday a week ago, but it was not developed in time for Dr. Tice to read it a week ago. He did read it this afternoon and found that the picture was negative so far as fractures were concerned. So we are sure about that now.

We used the diathermy on Bob today and had the foot bandaged in good shape. I insisted that Bob not play any basketball when he is home for Christmas. He stated that he would give it a good rest. I am sure that with that bandaging and what bandaging Buck Weaver will do for him if this bandage becomes loose before he returns, he will come back well on the way to recovery.

I insisted that Bob come in yesterday afternoon, but he did not show up. We called him at the Beta house today at noon and asked that he come this afternoon. He explained that he had had so much studying to do that he couldn't make it yesterday. He studied until two o'clock this morning and then got up at five for more studying. When a fellow is that much interested in his school work I am pretty sure that he will give a good account of himself.

I have emphasized the importance of his coming into the office upon his return to school so that we can use the diathermy on the foot and give it what manipulation it needs. I am very certain that with the rest he is giving the foot that it will be in good shape by the time he returns. You can rest assured that we will not neglect him in any way.

With all good wishes to you and your family for a very merry Christmas and a happy New Year, I am

Very sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.
