SONGS AND PICTURES FOR LITTLE FOLKS

Words and Music by HELEN C. KNOWLES
Photographs by RUTH ALEXANDER NICHOLS

The material contained in the book is the result of the author's experience with young children. Children like to "do things"—the things that little folks are doing. Children like to look at pictures—especially of other little people like themselves. The photographs taken by Ruth Alexander Nichols seem to have caught the delightful beauty of childhood, its freshening naturalness and exquisite charm.

DRUMS, TOM-TOMS AND RATTLES

Primitive Percussion Instruments for Modern Use
By BERNARD S. MASON

In this new and appealing book, the talented author describes not only the history and use of drums, tom-toms and rattles, but more important he tells how to make them. The text is superbly illustrated with line drawings illustrating designs, the technique of making the drums, and the assembly of the completed drums.

TEACHABLE MOMENTS

A New Approach to Health
By JAY B. NASH, PH.D.

Professor of Education, Chairman of the Department of Physical Education and Health, School of Education, New York University

Here is a book that is at once a challenge and an inspiration. The author contends that much of our health teaching has not only been a waste of time but also that simple basic principles of health are being neglected. He fears that we are making the children over health-conscious, getting them to see health bogeymen hiding everywhere ready to pounce upon them, fostering fear and distrust resulting in most unwholesome health procedures.
