

W·A·V·E·S

July 23.

Dear Dr. Allen,

Just rec'd your letter & have a few minutes  
to send you the dope requested.

I received my B.S. degree with Physical Education  
major in 1938. and my M.A. in Education &  
Physical Education at New York University in  
1941.

Since my goal is the Rehabilitation Program,  
if you wish to mention my interest in  
study of anatomy, kinesiology and Corrective  
work, I would appreciate it. This might  
give me a better chance of working  
toward Physio. Therapy or Physical Educ.  
in the Hospital Wards.

Of course, the things the Navy is  
interested in are Leadership Ability  
(this should have been proven in  
my teaching jobs, and as Supervisor of  
Women's Recreation & Welfare at Peatt &  
Whitney in Kansas City), personality  
and character.
