When we speak of body & mind we
are prone to think of these two
individual things separately
rather than a coordinated thing
Stimulus of a pin to an individual,
to a dog, to an earth worm,
to an omelette

The mind, body, autonomic
system & all work together.

The B.B. Coach when he coaches
skills does just this thing.

Skilled Phy. Ed. .. Beautiful rhythm

Golfer like Sammy going thru
the jungle - digging out
divots and talking to God.

Swimming - rhythm

Skill of Posture and Poise

Skills of Sports [Names and Addresses]
