

UNIVERSITY OF KANSAS
LAWRENCE

DIVISION OF PHYSICAL EDUCATION AND
INTERCOLLEGIATE ATHLETICS

Minister of P. E. -
Central Board of P. E.
Nervous System - Brain - Feet

The athlete at work and play - a few laboratory
for the study of many physiological problems
of general character, the study and analysis
many of which are conducted by the
attempt to break them down to simpler terms
Competition steps-up the mental and
physical factors co-operating in most
human groups for the production of
exceptional skill and keen judgment
1. Discovery of pure physiological facts these
of factors in human behavior that are
a bearing upon the skill and athletic performance
2. Discovering the effectiveness of coaching methods
