

by its vastness. I should be seeing quite a few Jayhawks on this side, I imagine, since most of them seem to be out here. I have met several already from '42-'44., although I didn't know them at the time we were both on the Hill. Last November I had a nice visit with Don Ebling and his wife. They had me out to their little apartment in Norfolk for dinner, and we had a great time recalling old times. Don is probably out on an APD now.

It was interesting to read about the boys and to know what they are doing. They certainly have scattered us around haven't they? What a lot of tall tales will be told when we all get together again.

I am keeping pretty busy these days, and I am still keeping my hand in the teaching line. However, instead of Spanish and fencing, and the smiling faces of '42-'44. coeds before me, I now am teaching plane and ship recognition, while gazing at a bunch of satty sailors.

Thanks again for the "Rebounds" and best wishes for a very happy new year to all of you in the department.

Sincerely,

Bill
