

If our local University athletic authorities and our Big Six officials would give us permission we would be willing to play the Kansas-Missouri game Friday night, March 1, in the new Kansas City, Missouri, Municipal Auditorium. By this arrangement everyone who desires to see this classic struggle could have an opportunity. I have not contacted the Missouri authorities. This is only our idea of letting everybody in on the game who wants to see it. Our limited space here means that at least five thousand people who desire to see the game will be turned away.
