

Additional Action on Rule Modifications

On the sheet marked "Possible Improvements in Wording, etc." the following action was taken:

The Committee rejected the suggestions which bear the following reference numbers: Page 2 (Diagram), 4-1, 2nd paragraph of 5-3, last sentence of 5-3, second paragraph of 6-12, 13-6 and 14-10-Note. In all other cases the Editor and Secretary were authorized to make the needed changes. In a few cases the suggestions were authorized in a modified form. These modifications are as follows:

6-3. In this section "approve" is to replace "announce". (This item was not included on the mimeographed sheet.)

6-11. The second paragraph is to be slightly modified to read: "And it should not be blown for substitutions after the ball has been placed at the disposal of the free thrower."

6-12. The second question is to be omitted. The matter is to be taken care of by inserting "and its operator" at the end of the second sentence of Rule 6-2.

The fourth paragraph of the suggestions under 6-12 was definitely approved by Committee action.

9-4 and 5. A question and answer in the rule book or the play situations book is to make it clear that in the case of a forfeited game the scoring records are to be counted.

15-12-Penalty (a). An attempt is to be made to emphasize three factors in connection with the foul against the shooter, i.e., the act of being roughly handled, committing a deliberate act and committing a foul from directly behind the shooter.
