

if it would be possible to get a date somewhere in there it would be swell. Of course, I realize Liston's tournament also is entitled to definite consideration, and I would not want to hog the show. However, I know that the play-off between the Missouri Valley and the Big Six in Kansas City would be a great drawing card. For that reason I thought I should mention it. It necessarily wouldn't have to be the 16th - it might be any time that you would have open.

At any rate, when I am in Kansas City within the next few weeks I am going to drop in to have a talk with you and this memorandum will serve its purpose when we get together. Let me know if you are planning on being out of town for any stretch of time within the next few weeks so that I might plan accordingly.

Very sincerely yours,

FCA:AH
