Mr. Forrest C. Allen
Lawrence,
Kansas

Dear Phog:

Well you and your boys did it, and I don't believe there is another team in the country who can beat Southern California in tournament play, so do it again next Saturday.

As you suggested last Saturday night I am writing you about the scoring and timing end of the championship game. We will all be there ready to go, and are all pulling for you. As I told you before our wives are about the same type of fans as we are so would like to have tickets for them too. The boys who are helping me in this work are as follows: Harley Selvidge, Roy Watkins, "Pe Wee" Bourrette, and the two boys, who operate the score board. This makes a total of six workers who with their wives and "best friend" makes a total of twelve, so will very much appreciate it if you will see to it that I receive twelve tickets.

Thanking you in advance and again wishing you the best of luck, I am,

Sincerely yours

Donald T. Caps
