Dr. Herbert Bunker
Assistant Professor of Physical Education
Department of Physical Education
University of Missouri
Columbia, Missouri

Dear Herb:

We are leaving this afternoon for Columbia and I will be at the Tiger Hotel after we arrive in your town.

We do not have a required program of Physical Education, but I filled out the other data which may be helpful to you.

Last early fall when Chancellor Mallott arrived from San Francisco just two weeks prior to the school opening, he called me by phone and said compulsory physical education is out. He and President Middlebush are both opponents of compulsory military training and Chancellor Mallott is against compulsory physical training.

If you have an opportunity any time Friday, I would be glad to personally give you some added information on our setup. I believe the trend is toward play fields further removed from the university for recreative purposes. I have in mind a play that is a dinger and would be glad to pass it on to you.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
