Dear Dr. Allen,

You're going to excuse me on the basis of a friendship which I have for you, and a bit of which I have had reasons to believe is returned by the Jayhawk sports chief,

But the letter which you have addressed to two Wittenberg coaches asking for their "cryptic" remarks will most probably get just what you ask for: something mysterious, something out of the tomb!

I'll be damned if I can get them to say anything for publication, other than the routine, but maybe you can shake something out.

I have included here two glossies which after all is what you wanted, and not my facetious greetings involving comment on one of those rare times when the chief misuses a word.

And Happy Easter all around.

Yours very truly,

K. G. Lind
