Dear Phog:

I haven't heard from you for a long
time.

Sometime ago I received a letter in
which you said you were very desirous
of settling up this basketball account--
the sooner the better.

You told me that you had classes during
the week and as soon as the rush of
school opening was over you were going
to call me and we would get together and
bring the matter to a conclusion.

Isn't it possible at this time for you
to set a time that would be convenient
to you.

Sincerely yours,
