Director of Physical Education,
University of Kansas,
Lawrence Kansas.

Dear "PHog";

What I wanted to talk to you about-- and I know that the warmth of a conversation frequently prevents a misunderstanding--was concerning that Hotel item at the Continental Hotel; I had no idea there would not be a rate on the room they assigned me;; I wanted as good accommodations as were available for the gathering place of the officials and others. What I wish you would do is to settle for what would be a reasonable expense and they can send the difference to me-----I will take care of it.

It was unreasonable;; The several 'phone calls, (local all of them), were mostly trying to get in touch with Jackman and Dixon.

I will have my expense account in from New York I just have not had time to get it ready.

Phog it was great to work with you;; I hope to have that pleasure again.

The two balls are in the custody of a Mr. Meredith, (down stairs), who will deliver them to you.

Cordially,

Ernie

To a Ruth Aldy,
