Robinson, 105
Campus

Dear Dr. Allen:

To schedule the state training institute on physical fitness programs for high schools as of July 8, 9, and 10, fits well into the summer session schedule. Strong Hinman attended a called meeting by the United States Office of Education not long ago in one of the cities in Ohio. The Office of Education is anxious that as many institutes^{as} as possible promote the physical fitness programs that now should be a part of the offering of every high school. I believe that the institute as it is being planned here will meet the request of the Office of Education.

You will be interested in knowing that Strong Hinman will not go to Missouri this summer as the superintendent of schools in Topeka has work for him there. I thought you might be interested in case you should care to use his services. I hope you will take care of the advertising and promotion work because these men who work in this area are well known to you. If there is any assistance that this office can give, please let me know.

Sincerely yours,

J. W. Twente
