

the administration.

Met "Lenny" Hamilton at officer's mess the other day. He is now a Capt. and a fine looking boy. He is stationed at Pecos Texas!

Had dinner with Ralph Miller the other night. He graduates from OCS tomorrow. I never saw him looking better. He has made a fine impression over there.

It is time to get to work so will have to get under way.

Geo. Baxter dropped in the other day just long enough to say: "What the hell kinda war is this? Only the Air Corps could get an air conditioned building". He is at Fort Sam Houston just outside of San Antonio.

I'm concerned about the clipping. We are starting to miss the boat just like we did after the last war.

Sincerely
Ed.
