These are for the pleasure of the children of faculty members graduate students and the like, many of whom are crowded into small apartments all through each day. The adults will have croquet, shuffle board, badminton, and goal-hi, volley ball."

It will all be well lighted and Dr Allen called attention to the fact that mosquitoes do not bother lighted areas. The veteran physical education in the direction of the recreational program ^{staff} director ~~and~~ will be assisted by members of his department and by ~~many~~ students majoring in the department.
