

Dr. Canuteson's suggestions concerning excuses --

1. The hospital could retain all the slips written there and at the end of each day we could collect them and check against our absences.
2. A person from here could go over the daily record book kept at the hospital with the clerk at the desk each evening to list the excuses given out that day, but Dr. Canuteson says it would take about an hour to do this and he does not feel that his clerk could spare that time.
3. Dr. Canuteson would like to see an arrangement worked out whereby there would be no excuses. This is his suggestion for that: A student is presumably in a conditioning class 48 hours a semester (16 weeks, 3 hours a week). Allow him only three cuts. Then provide a regular time for all make-up work, say each Saturday morning, and let the students make up hour for hour every class they have missed so that by the end of the semester they would actually have had 45 hours of conditioning.

Note: Dr. Canuteson would like to see a discontinuance of the practice of classes going over to Hoeh Auditorium on extremely cold days. This endangers the health of the boys, and rather than do that some doubling up might be done in the gym.
