

semester a group of freshmen are to be admitted as the seniors are graduated. As I understand it, all of these V-12 boys will be in uniform, and books will be provided for them. They will be housed in fraternities and messes in the Union Building.

I understand that on the 24th of May there will be a contingent of about 120 medical students who will be put in uniform and will be housed in the ATO and Sigma Chi fraternity houses, and they too will probably have to take physical conditioning.

Sincerely,

Henry Sherk
