Topeka, Kansas.
June 27, 1940

Dear Dr. Allen and fellow P.E. faculty friends -

I want you all to know how much I appreciate your friendly thoughts and lovely gift to us. No more charming remembrance, of the delightful friendships I have had could possibly have been chosen as I am so very fond of Mrs. Crow's work. I have long cherished the desire to have a piece for my own.

This house-keeping business is turning out to be as much of a job as running a three-ring circus. It's not quite so simple as it seems, looking on - but with a little experience I think I can hold down the job.

I know that all of you must now and then come to Topeka and I do hope that you will find time to visit us
