April 4, 1940

Dear Dr. Allen,

In a recent conversation you suggested that I should apply for the Ph. D degree as soon as possible. I'm taking the opportunity of mentioning that I am placing my application for candidacy and continuing my graduate work toward the doctorate.

This year I have taken on the teaching of two theory courses in addition to my regular skills class schedule. I hope that I may be able to handle more theory courses.

Concerning research, I should like to point out that my research on teaching method in Physical Education is filling a definite need, as indicated by the recent Phys. Ed. convention at Wichita. Too, I feel that this type of research will add prestige to our professional department.

I hope that you will feel that the above will merit an increase in salary.

Sincerely yours

  
James H. Raport
