

On Tuesday night we held a social dance in the Union Building on the reconditioned ballroom floor. We arranged with the Kansas Electric Power Company and Green Brothers for air-cooling units - so in spite of the hot weather outside everyone agreed it was most comfortable in the ballroom. It was a delightful party, with about 350 in attendance. Dick Tippin and his twelve-piece orchestra played for us (for the huge sum of \$12.00). Flowers and ferns decorated the ballroom, and Miss Zipple served punch and wafers. We also had Coca-Cola available for those who wanted it.

Last week, on the 16th, we had a crowd of about 600 persons at our first dance in the street in the moonlight! The street was blocked off just west of the Anatomy building, and cornmeal was spread over the pavement. Records provided music for the social dancing, and a piano and fiddle gave us music for the folk and square dancing. It was a wonderful evening.

We have added more lights on the playground this summer, using the ones that are used at the stadium each June for commencement. It looks like Times Square, only we do not have the vendors and the people who go to New York to lose their respectability! We have added more shuffleboard courts, including a wooden portable court, four loop tennis sets, and another monkey-maze for the children. Mrs. Deal Six comes up often, and she is very enthusiastic about the program.

Give Howard my kindest regards. The catalogs have been sent to you from the Registrar's office, and I trust he has had time to look them over. If you should decide to send Howard out here you may be sure that I would give him a lot of attention. But I wonder how you are going to reconcile him to a place where they do not play hockey! If you should decide to send him to a Big Ten school I could doubtless be of some help in making contacts for him. I know that in the Big Ten they give as much attention to a hockey player as they do to other athletes. But we are still "Simon pure" - we aren't even going out after basketball players! But I do think it would be a worthwhile and wonderful experience for Howard, and if there is any way I can help it will be a pleasure to do so.

You may be interested in the enclosed letter from Maxyne Jo Woody, who signs herself the Belle of Barnard. I have met her nephew, of whom she writes, and he is a big, fine-looking fellow. Doubtless Warren will see him through school, because Warren is knocking off thirty to forty thousand a year buying cattle and ranches out around Barnard. It looks as if Warren will soon be the "Baron of Barnard".

Our basketball schedule next winter takes us to New York. We play Fordham in Madison Square Garden on December 28, and Temple University in Philadelphia on December 30. Then
