

UNIVERSITY OF KANSAS  
LAWRENCE

DEPARTMENT OF PHYSICAL EDUCATION

August 10, 1940.

Dr. F. C. Allen,  
c/o Professor D. K. Brace,  
Department of Physical Education,  
University of Texas,  
Austin, Texas.

Dear Dr. Allen:

I am enclosing a letter which came this morning from Ernest Mehl, and which seems to need an immediate reply.

The re-written article came from Dan Partner this morning, and I am sending it on air-mail to Mr. Doyle. I have written to Mr. Partner, telling him that I am forwarding this during your absence.

The weather is still cool and cloudy, with occasional showers. It is very pleasant - so pleasant that we have nearly forgotten those two or three weeks of hot weather.

The campus is forsaken. The playground is bare, and now the grass will have a chance to grow. The rains will help that immensely. Dave finished his work yesterday, getting all the equipment stored away, repairing the broken articles, and so forth.

I'm very sorry that I didn't get to wish you and Mrs. Allen a pleasant trip to Texas. I didn't realize that you were leaving so soon. But I'll see you when you return, and I still want to have that little visit with Mrs. Allen that I promised her.

With best wishes to you both, I am

Sincerely yours,

*Alberta Hulteen*
