LAWRENCE

OFFICE OF THE DEAN

November 21, 1939

Dr. Forrest C. Allen
Director of Physical Education
and Recreation
University of Kansas

Dear Dr. Allen:

Professor Werner turned over to us a jar of salve the composition of which you were interested in. I imagine the preparation is in the original container and since it is a commercial article, doubtless you could furnish us with a larger sample as the small amount in the bottom of the jar would not be sufficient for analytical purposes.

If this much of the contents of this jar has been used, it would be interesting to know if the preparation has proven efficacious in the treatment of fungoid diseases.

Awaiting your further advice, I remain

Very truly yours,

L. D. Havenhill, Dean
