

October 26, 1939.

Miss Jane Ryan,
Department of Physical Education.

Dear Miss Ryan:

I received this morning the following note from
Mr. Liston, the night watchman:

"The Tau Sigma had meeting of some kind at the gym
this evening and when I came in at 9:00 the girls
were sitting on the north approach, as many as
could be seated, and I think every girl was smoking
a cigarette, and as you know, everything is covered
with dry leaves now."

I am writing to you since these girls are under
your direction, and I wish you would impress upon them
that these no-smoking regulations must be strictly enforced.
The night watchman is under orders from Mr. Bayles and Mr.
Bayles has orders from the State Fire Marshal. If, through
any negligence of ours, we should lose one of these buildings it
wouldn't be easy getting another building. We would have
no place to go.

Will you please issue strict orders to the members
of Tau Sigma not to smoke in the halls, on the approaches,
or any where in the building. It may take a little policing.
We are receiving criticism, and I know you will be glad to
cooperate in enforcing this regulation.

Sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.
