

Recommendations:

1. That Course 40 - Personal & Community Health be substituted ^{as a requirement} for Course 30 Personal Health for men.
2. That Personal Hygiene, Course 64 be a combined course required for both men and women.
3. That School Hygiene not be required for Physical Education Major.

The courses ~~Physical Education~~ School Hygiene was put in the P.E. Curriculum as required courses when it was formulated in 1937 because the state law required those courses. The state law does not now require the above named courses.

4. That the content of course PE 34W be changed to social dancing, volley ball; baseball - tennis, instead of games - volley ball, baseball - tennis.
5. That ~~Courses 39~~ Open School Playground activities be required of women majors instead of the games/activities in PE 34W
