

#2 Prof. George B. Affleck
July 1st, 1937

Please rest assured that I very much appreciate your writing me concerning Dr. Berry. I certainly would like very much to have him with us.

I would also like to be remembered to Mrs. Affleck and your good family. I enjoyed the fine relationships I experienced while teaching at Springfield College during those summer days.

I had a nice visit with my friend Hickox in Chicago at the basketball meeting. He is a great fellow. Hickox tells me that Mrs. Hickox is now President of the Board of Education of your fine city. She certainly aspires to tough jobs, but I am very sure that she will do the job well if she undertakes it.

Again wishing all of you my very
best, I am

Sincerely yours,

Director, Department of
Physical Education
