Dr. Thomas A. Storey
General Director
Sch. of Hygiene & Phys. Ed.
Stanford University
California

Dear Dr. Storey:

Your splendid letter of May 27th has gone unanswered due to the fact that I have taken better than thirty days off from my work to finish a manuscript promised the publishers to be in New York by July 1st.

I have done absolutely nothing but that one thing from the time I received your letter until now.

I want you to know that I genuinely appreciate your very splendid letter and your kind offers, and if you will communicate with the secretaries of these three organizations and ask them to write me directly, I will appreciate it very much.

Dr. Canuteson told me that he was going to be with you this summer. I am hoping that he and you will be able to continue your fine friendship and acquaintance.

Further, I would appreciate very much, if you would suggest certain individuals that you feel have adequate fundamental preparation and good promise for a possible position here. I realize that they, of course, would be holders of the less advanced degrees than I first discussed.

Again thanking you for your very generous and helpful suggestions, I am

Very cordially yours,

Director, Department of
Physical Education
