

Dean is handling your classes in fine shape, and he is really enjoying it.

I took Saturday morning off, leaving Evelyn Herriman in the office, and we went to Wellington so that Bobby could get acquainted with his other grandfather. He made quite a hit with the folks there. Things were very quiet here in the gymnasium, and I was sure you wouldn't object to my being away.

I hope you have some chance to rest on the train on the way home. I don't see how you can have a chance any other time. Dr. Elbel said you were looking rather tired at Sioux City. I imagine you are finding your trips very valuable, though, in making contacts with important people.

We'll be glad to welcome you home next week.

Sincerely,
