Principles of Dietetics	
History or Geography	
General Psychology	

Courses in Physical Activity

The courses listed as physical activity are designed primarily to secure health, recreation, and conditioning. Each course has a minimum length of one semester. The student may elect to continue in the activity for the first half-semester and then change to another activity for the remainder of the semester. During the spring semester the same practice is followed. The average of the grades for the two semesters determines the semester grade. The student may elect to continue in the activity for the first half-semester and then change to another activity for the remainder of the semester.
