The John Moore Co-op house will be operated through the summer, offering men students an opportunity to live on a co-operative basis at low cost.

The University attempts also to secure the best housing accommodations available for its students in private homes. A committee preparing a list investigates the sanitary and social conditions of the houses, and by careful survey determines a fair rental price for each room. Students who are living in rooms are expected to do so only in houses which are on the list.
