

PSYCHOLOGICAL AND APTITUDE EXAMINATIONS

With the exception of graduate students, all students entering the University for the first time are required to take psychological and aptitude examinations. For the Summer Semester of 1943 these examinations will be held on the morning and afternoon of Saturday, May 22. Appointments for these examinations are indicated on the registration permit of each student. Students who fail to take the examinations before registration must deposit a fee of \$5.00 at the time of registration and take the examinations at a later time.

The time of the Psychological and Aptitude Examinations for Summer Session students will be Saturday, June 19, both morning and afternoon.

ENROLLMENT IN MORE THAN ONE OF THE SUMMER PROGRAMS

Students enrolled in the Regular Summer Semester may, if carrying a limited enrollment, also take work in another of the summer programs. This dual arrangement is subject to the limitation that at no time shall the student's enrollment load be greater than the maximum allowed by the school in which he is registered. Courses which are offered at an accelerated rate count on the enrollment program in the ratio that the acceleration is made. For instance, in the Summer Session (eight weeks) the work is done theoretically at twice the speed obtaining in the Regular Summer Semester (sixteen weeks), that in the five-weeks' short program for V-1 and V-7 and Engineering students at three times the rate of the Regular Summer Semester. This would mean that a student, say, whose maximum enrollment for any semester is seventeen hours and who is enrolled in not more than eleven hours in the Regular Summer Semester may take an additional two-hours' course in the five-weeks' program or an additional three-hours' course in the Summer Session.
