Dear Uncle "Phog",

As usual whenever I write you I want something. I want you to know though that I followed your team every game you played. Every time you played Oklahoma I was on pins and needles until I read the paper. Usually you won. Ralph Miller really went to town this year as did Black and Bueckler. I got a congestion of the lungs at the beginning of January so I can not take gym now. That meant I missed the whole basketball season. "Was I mad". Basketball is one of my three favorite sports. Football, baseball, Basketball
