

(2)

Put on dilo this fall  
we will clear the brush  
of and put it to com  
or sarsa. This spring  
for the crop. Then  
we will sow it to  
Korean Clover. This  
fall. when we take  
the crop off. and if  
you desire we will  
sow wheat or barley  
with the Korean Clover  
this fall and give  
you  $\frac{1}{3}$  of the small  
grain crop. The  
seeds will have a  
chance to rot by seeding  
time. W. H. McMillen
