-2-

Bobby got his elbow hurt in the Kansas State game and I am afraid he is lost to our team against Nebraska tonight at Lincoln. He can hardly use his arm at all although he did stay up until 2 o'clock Friday morning studying Physical Chemistry. Your Grandmother is terribly worried about him and thinks perhaps that he will not survive the basketball season. I believe he will, however, because he loves the game and without basketball, his life would not be complete, I feel. Our team has done much better than I had ever hoped so whatever they do from now on out is more than I hoped and I am thankful for their efforts.

With lots of love, I am affectionately

Granddad
