

October 1, 1940

Mr. Hubert L. Allen  
7216 S. Coles Avenue  
Chicago, Illinois

Dear Hubert:

Congratulations on your move to Chicago and your branching out into real definite practice of obstetrics and gynecology. It looks as if you are in the big league now, boy, and I wish you every success in the practice of medicine.

Please give my kindest regards to the good wife, and although I have never seen Hubert Lee III and the other youngster, whose name I do not know, I assure you that we wish you and the family every success, and all health and happiness in the world that can come to a young and ambitious couple as well as their offspring.

Jane is in Chicago living at the Three Arts Club. I am taking this letter home and allowing the family to read it, and I am sure that Mrs. Allen will send the card to Jane, and doubtless she may give you a ring. As you know, Jane graduated from Stanford after she finished here and then last year she was with Richey Cooper in Kansas City, who works for the Saturday Evening Post, McCall and Vogue, and now she is in Chicago still carrying on to bigger and better things, she is hoping.

We had a visit with Jane in Chicago on our way back from Louisville, where we visited Mary and the three children at the end of this summer. I had a meeting in Chicago with the National Collegiate Executive Committee on the 6th and 7th of September, but of course we did not know that you people were in Chicago.

I certainly want to see you good people when and if our family in Chicago will give you a ring, but we do not know when that will be. I suppose the grandparents of the Dr. and Mrs. Hubert L. Allen issue get an opportunity to see the youngsters often.

With love and best wishes,

Sincerely yours,

Director of Physical Education and Recreation  
Varsity Basketball Coach
