

win a few basketball games. You know when you win a few championships they think that you should win each year, regardless of the strength of the opposition. I would enjoy driving down and sitting in your home and spending two or three evenings at the fireside just chatting with you and Hub. I know that we would have the quah, and that is an added urge, but my time is taken up so much that I do not see how I can make it just now.

Elmer, I cherish very much the visit with you brothers, but it seems that the call of duty and the responsibilities of family and departmental existence keep me pretty much on the job. Some day I will have worn out my usefulness, and then I imagine we will have some time -- maybe too much time to spend. I think a fellow can live too long, but as long as I am around here I am not going to spend any time moaning. I have had a swell time in this life of mind and I have no kicks nor complaints to make. I have gotten far more out of this life than is normally coming to me.

Frankly, I do hope to see you and maybe some time at a week-end Bess and I will get in the car and drive to Cabool and then stop and see you on the way. I am afraid it will be after basketball season before I can spend an evening at your fire-side.

With all good wishes, I am

Affectionately, Your brother,

Director of Physical Education and Recreation,
Varsity Basketball Coach.
