Mr. A. E. Woosteneyer,
Peoples State Bank,
Lawrence, Kansas.

Dear Woeste:

Someone has said there are three stages in the American life - the passing of the Indian, the passing of the buffalo, and the passing of the buck. And now we are coming to the fourth stage where the Kansas Relays come in and the passing of the baton.

But over against all of this is the thought of the passing to me by you of this lovely set of golf equipment, which makes me feel that the fifth stage in my life will prove to be the happiest one. If anyone would have consulted me on this gift, which they did not, I would have chosen five to one the golf clubs over any other token of esteem and friendship.

So you know how inately happy I am in receiving this gift from my many friends in Lawrence. It has expressed the good will and friendship of Lawrence to me in a way that I have never before experienced.

Very sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.
