Jan. 5, 1937

Dear Forrest:

In the Sunday conference question was raised as to your salary under the new arrangement. I find on inquiry that the Regents had no thought of the reduction of your present salary.

The Regents, of course, have no authority directly over the part assigned by the Athletic Board. But I am confident that the latter will do their part. I shall, you may be sure, advocate that solution.

You will have much to do in launching the coaches school or course in addition to coaching duties.

The Regents were unanimous in their earnest desire to conserve to athletics and to physical education at K. U. your great talents.

I need not assure you that after years of close and friendly association, of my continued cooperation with you in an effort to bring our athletics back once more into a favorable condition.

These have not been happy days for either of us - I hope we can go forward to better days.

With affectionate regards,

(Signed)

E. H. Lindley
