

Atchison, Kansas  
July 31, 1941

Dear Board Member:

In assembling this first Unit Packet for you I have thought of the many different tasks you are called upon to do in Parent-Teacher work in your communities, aside from your work on the board. Because of this, I have included any material I thought would be helpful to you.

The present conditions are a challenge to Parent-Teacher leaders to retain and strengthen our present units, as well as to organize new ones at every opportunity. I am sure each one of us feels this is one of our most important obligations. Since our organization is concerned with the welfare of children and youth, we must work with renewed effort toward the kind of homes, schools and communities that are essential to their well-being.

I am looking forward to our association together.  
Wishing you a successful and pleasant P. T. A. year,

I am sincerely,

*Helen Louise Emery*
