

October 26, 1945

Mr. Earl Price  
Caldwell, Kansas

Dear Earl:

I want to congratulate you on your very excellent showing that you made in the past two years on the athletic fields in your high school. Your great admirer and your friend and mine, Don Keown, has written me repeatedly concerning your fine athletic ability and your general all around worthiness. He is very anxious to see you show your splendid tackles as a member of Kansas Varsities. Don could give the Rock Chalk much more lustily when you were one of the Jayhawker participants.

I want to also congratulate you in your great upset when you spilled Anthony High School. That certainly was an upset. Don tells me that you tackle like Ray Evans and he said that he saw you play basketball last year and that he saw great promises so I am extending to you our congratulations and hope that your successes will be even greater than they have been and that is saying a lot.

I hope that you will get to come to the Kansas Relays this year where you can have a chance to spend some time on the campus and get better acquainted. During the morning of the Relays we invite the high school boys to come in and shoot goals in the gym. They have a lot of fun getting acquainted with each other and signing off with a good shower bath. All this is done in time so that they get down to the relays and see great college stars in action. We hope that you will be one of them.

Sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach
