## PHI KAPPA PSI FRATERNITY

February 12, 1945

Dear Brother:

Founders Day - 1945 would seem to be a most fitting time to give a further report to the alumni of the Fraternity as to its progress and future.

Those of you who have read Dab Williams' very excellent issues of The Shield have been able to generally follow Phi Kappa Psi history. It will interest you to know that the January issue of The Shield went to 10,500 Phi Psis. The substantial progress of the Fraternity is shown by the fact that in 1930 we printed about 3,000 copies of The Shield. It now goes to Phi Psis in every state of the Union, six provinces of Canada and direct to several hundred Phi Psis overseas.

Since my last letter of October to our selected group of alumni (we shall be glad to add anyone requesting it to the mailing list), a number of encouraging reports have been received from chapter house corporations.

Major J. A. Habegger reports that the California Gamma chapter house corporation has no mortgage indebtedness and a cash balance of \$7,000. In addition, the chapter house is rented for the duration on a profitable basis.

Indiana Alpha has recently paid off the mortgage on its fine new property. A bequest through the will of Brother Will A. Cavin aided greatly in this debt retirement.

From time to time, chapters which have been inactive for various reasons are resuming their activity. Pennsylvania Epsilon at Gettysburg has initiated two new Brothers and has five men on the campus. The chapter house, rebuilt and added to after a severe fire several years ago, is clear of debt.

Pennsylvania Iota, after a year or more of inactivity, has pledged six, giving the chapter a total of ten, and as of January 1st, the chapter house has been reopened.

Texas Alpha reports 16 initiates since November; Iowa Alpha initiated 14 on December 10th; Washington Alpha initiated 12 in November, and has 17 pledged. Indiana Beta, one of the old reliable of the Fraternity, has initiated 21 since December 1st. Michigan Alpha, hard hit by the war, now claims 21.

In our budget for the fiscal year ending May 31, 1945, we set up an estimated number of new initiates at 150. Through January 31st, we have already had 311 initiates reported to Secretary Williams. About 700 initiates is a normal year.

We have several chapters which in the future, will require definite and aggressive aid from the alumni and the Executive Council. All Phi Psis have disappeared from the campus at Colorado Alpha and Mississippi Alpha. There is no chapter house at Colorado, and the house at Mississippi, unoccupied during the War, has suffered damage from the weather. With the aid of the Tom Platt Fund some reconditioning work is being done.

February 12, 1945

Both of these instances may require the sending of undergraduate Phi Psis to their institutions and the payment of their expenses for a year, so that the chapters may be revived. Colonization, as we call it, is apparently the only solution in these instances.

Loyal and enthusiastic Phi Psi alumni in Tucson and the University of Arizona are seriously considering the formation of a local club of the Fraternity there, to petition for a charter of Phi Kappa Psi. At recent G.A.C's, there has been evident a real demand among our undergraduate chapters for extension, particularly in the South and Southwest. I believe that such an effort will meet with a cordial response from the Fraternity as a whole.

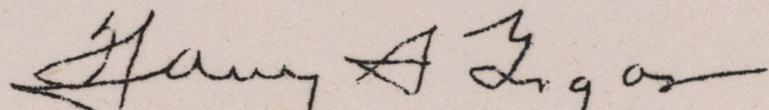

Amherst College is engaged in a wave of reorganization and post-war planning. A considerable element apparently is advocating the elimination of fraternities. The outcome will depend upon the attitude of the alumni of Amherst College, and action, if taken, will be in the next few months.

Missouri Alpha, which has published a remarkably fine chapter news letter during the war, but has been inactive on the campus, is reorganizing for a very active rehabilitation campaign. Craig Ruby, Mo. Alpha '16, well known basketball coach and personnel director, is the new President of the chapter house corporation, and with the cooperation of Orson Lee and other well known alumni is actively preparing for a revived chapter.

So it goes. These have been strenuous times, but through it all Phi Kappa Psi continues to move forward. We ask your continued help and cooperation. As the war news gets better, we can more easily visualize a stronger and better Phi Kappa Psi, worthy of the thousands of Brothers who are fighting overseas.

Very fraternally yours,

THE EXECUTIVE BOARD.

  
Harry S. Gorgas, President.

Dear Dr. Allen:

Our schedule for University High School is now complete unless some school should be forced to request a change. The dates which we need Robinson Gymnasium for are January 5, January 30, February 9, February 13, and February 24. We are playing four games in the Municipal Auditorium on afternoons which conflict with varsity basketball practice.

Very sincerely yours,

Gerald Pearson  
Principal

Dear Dr. Allen:

Recently Mrs. Hulteen and I checked with regard to the use of Robinson Gymnasium for the scheduled games of University High School. In the opinion of Mrs. Hulteen Robinson Gymnasium would be available for use by University High School for games starting at 3:20 on the following dates:

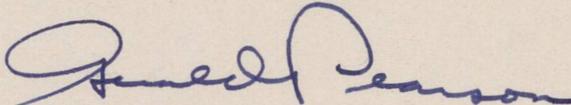

January 5,12,19,27,30

February 9,13,16,23

As a matter of record we are sending this list of dates in order that you will reserve the use of Robinson Gymnasium for University High on these dates.

I again wish to thank you for your assistance in helping us locate athletic supplies. Mr. Talbot of the Elliott Company called on us, and we now have our new suits and one basketball. He also gave us a promise of a second basketball before the start of our basketball season.

Dear Dr. Allen:

This is to acknowledge receipt of your kind letter of February 3, pertaining to four tickets to the K. U.-Oklahoma basketball game.

Dear Senator Potucek:

Of course I do not handle the tickets for the basketball games, but I took your request in to Mr. E. C. Quigley, our Director of Athletics. Mr. Quigley had Mr. Earl Falkenstien, his financial secretary, call the Chancellor's Office, as the Chancellor is always desirous of taking care of the Legislature when they come to the University.

Mr. Falkenstien has laid four tickets aside in your name. Mr. Nichols, the Chancellor's executive secretary, said if the other two tickets are for members of the legislature they will be taken care of in a complimentary fashion. Will you kindly give Mr. Quigley this information?

We are glad that you are coming down and we believe that you will see a pretty tough ball game. Oklahoma is pretty rugged.

Dear Reaves:

Your very understanding letter of February 3rd has been received. I know that you experience the same disappointments from poorly officiated games as we do. And I think you are very understanding. I know that you will improve the officiating in the Big Six as far as you can possibly do so.

Regarding Fritz Knerr's small numbers on his jerseys - I do not believe that he was cognizant of it at the time, but it is again a just criticism to say that our basketball coaches do not spend enough time together to discuss the things that are good for our game. It is either because the athletic directors think of the added expense, or they use one excuse or another for not taking enough time to work on the constructive things.

Don't you think that the Commissioner could suggest to the athletic directors a meeting at least once a year of basketball coaches, the time to consume at least a full day? I think with the dangers present to basketball and other forms of athletics, the coaches have got to take a more constructive attitude toward more constructive things.

Be glad to see you in Lincoln.

I am writing Dick, and will be glad to encourage him.

Dear Doc:

In your letter of January 31st. you state that there has been so many changes in the list of officials that I sent to you that you no longer know whom is working. With the exception of Faye Ferguson in the Missouri-Oklahoma game-sent to Hospital- I don't know of any changes made in the officials.

Sorry you had a rough game at Lawrence when you played Kansas State; that should never happen.

Lance and Hogue have been assigned to the Kansas-Kansas State game at Manhattan on Feb. 16th. I believe I can assure you that this game will not be rough; unless it should be one of those games that come up sometime in spite of all the fouls the officials call.

We had a thriller with Westport last night. We won 31-30 thereby going into first place in the League without a loss. Four won and three to play. We had a five point lead with less than two minutes to play- that would mean seven or nine points for your team- and in a position to make them play our way. A Westport player knocked the ball out-of-bounds and everyone of the 6000 there knew he had knocked it out except the one official that gave it to Westport; yes, you guessed it they passes in and hit a 40foot shot to get right back into the ball game. It wasn't even a close decision and it came near knocking us right out of the championship race. And to add fuel to my already heated brow with five seconds to play a normal held ball was called, no players on the floor or mæxed-up, and without any signal from the officials the Timer stopped the clock until the ball was tapped. I survived the ordeal. I merely state all this to let you know, as though you didn't already know that I too suffer on that bench and am always cognizant of the needed wrok with officials.

If you had only called Fritz's<sup>5</sup> attention to those small letters at the December games he probably could have made arrangements while here to have them changed. I hope they get fixed up on that.

Dick got in the Manual game last week, took one shot and scored one basket. Wish you would drop him a line of encouragement. He is improving nicely but I am sure a word from you would help him a lot. Sorry we can't get far enough out in front to give him a real chance to show his wares.

Will probably see you in Lincoln on Feb. 10th. Sincerely yours,

The Topeka Daily Capital,  
Topeka, Kansas.

Dear Don:

Thanks so much for your letter of the 27th giving me the correction on McClelland, and not McClellan. Yes, sir, this boy must be quite a personality!

Had you been in on the Kansas-Kansas State game last night you would have been prostrated. It was tougher than the Iowa State game and it had the customers swooning in the aisles. Mit has not seen a single Big Six game that Kansas has played, and will not until the 24th, when we play Missouri. His Haskell Indians are keeping him on the move.

Bob was down for the Iowa State game and again for the Kansas State game. He trades with other internes, and does a good job in getting away for the evening, but goes back immediately after the game, or soon thereafter.

Certainly I wish you every good luck in your Daily Oklahoman relationship. If there is anything at any time that I can do to further your welfare, please feel free to call upon me.

And by the way, where are all the nice Fauntleroy coaches who said that I had lost faith in American youth, and so forth and so forth? They are all jumping on the bandwagon now and want to prosecute the gamblers, as if these Simple Simons didn't know the truth before.

Sincerely yours,

Director of Physical Education,

Dear Doc,

For the sake of accuracy and rather important information ~~Discxx~~ the Highland Park boy's name is McClelland not McClellan. You will be happy to know he dropped in 14 (count 'em) Free throws against Seaman as well as four baskets. How is that for a performance

Haven't got your score on the Iowa State game yet tonight, but think you'll win by a narrow count. It will be tougher up there as you know. You can't beat K-State bad enough to suit me.

Best of luck, Doc, hope I'll be covering Roundball for the Oklahoman.

Give my best regards to Bob and Mitt and their respective wives.

Hope I'll be seeing you around.

Dear Doc,

*France*

It's about time for another letter to you. I can now tell you that we are a part of the 3rd Army and we are moving again. I hope it won't be too long before we won't have to get up and at 'em in this manner. We are doing fine despite a desperate enemy and terrible weather. It's wonderful what a human body can become accustomed to. It would seem any normal human body would die in such conditions. But I believe the average guy is healthier than in seemingly ideal conditions.

The places we go through now are torn to bits and are usually burned to the ground. We get in some scrapes that I don't see how we get out of, but so far it's always been the other side that quit the fight first and that's the way it's going to be all the way in.

I can't tell you how much I enjoy hearing from you. Your latest edition should be here before long. We are thankful this Thanksgiving that we are here and able to do what we are doing. Did I tell you I have visited the city of Nancy. We'll try to keep you posted. Regards to all. As ever John
