

April 2, 1945.

Dr. Don Carlos Peete,
1500 Professional Bldg.,
Kansas City, Mo.

Dear Dr. Peete:

I find that I have been negligent to the point of even writing you and thanking you for the radio cardiogram and your high professional skill when you so kindly took care of me. I did thank you, but if I thank you a hundred times it will not be too much.

I am sorry that I didn't have some time other than your busy professional life to visit with you. Still, we had a short visit at the Engineers banquet, but we were not together then. I am hoping some time in the not too distant future that we are going to have that chance for a visit we have long contemplated. Certainly when it does come it will be most satisfying because we will have many, many things to talk about.

It is always good to see you, and your professional skill is always most highly appreciated.

Until you are better paid, I am, as ever

Sincerely,

Director of Physical Education,
Varsity Basketball Coach.
